WORK HISTORY

Web Developer

101 NETWORK | SEPT 2019 - PRESENT

- Utilize Wordpress & PHP
- Develop responsive and dynamic Wordpress websites that ensure high traffic and user-friendly experience
- Ensure cross-browser, cross-platform, and multiple device type compatibility for all web solutions
- Support operations team with day-to-day requests related to website functionality and performance
- Involve in all aspects of the application development lifecycle: Idea, Development, QA, Documentation, Implementation, and Integration
- Develop, maintain, troubleshooting and enhance existing web applications and services.
- Adhere to project schedules and effectively report progress to meet challenging deadlines
- Code Review before merging into Github

Front-end Developer

TRAGIC MEDIA | OCT 2018 - APR 2019

- Took Photoshop files from design and created responsive landing pages using JavaScript, HTML5, CSS3, Sass, and Flexbox.
- Utilized Wordpress, Drupal, Filezilla, Photoshop, Git, Npm, and Gulp during production process.
- Worked closely with other developers in researching, implementing, testing, debugging, deploying, and maintaining web applications.
- Completed tasks using teamwork.com for agile/scrum development methodology.

Software Developer Intern

NEWROCKET | AUG 2018 - SEPT 2018

- Helped troubleshoot widgets and service portals using the ServiceNow platform and utilizing AngularJS, HTML5, CSS3, Sass, and Bootstrap.

Software Developer Contractor

FICUS | Mar 2018 - May 2018

- Designed, built, tested, and deployed Ficus Mini, the beta edition to the gamified stock-trading Ficus app (available on iOS).
- Built the Ficus Mini app using React-Native for the front-end and MongoDB, Express, Redis, and Loopback for the backend.
- Utilized Xcode, Expo, and Photoshop.
- Completed tasks using Jira and BitBucket for agile/scrum development methodology.

Financial Professional

AXA ADVISORS, SCOTTRADE, JPMORGAN CHASE
BANK | FEB 2012 - SEPT 2018

- Met with clients to discuss their short-term and longterm financial goals.
- Came up with solutions, strategies, and the right products to help clients achieve their financial objectives.
